

Text Drivers

At Cherry Tree Academy our writing curriculum is driven by texts. Quality reading materials is the golden thread which runs through all aspects of the writing curriculum. We immerse our children in a wide range of carefully chosen fiction and non-fiction texts which help them connect with the world around them, and provide inspiration for their writing.

Reading for Pleasure Spine

'Reading for Pleasure is the single most important indicator of a child's future success.'
OECD 2002

At Cherry Tree Academy we believe in the importance of enveloping our children in quality texts and as part of this we have developed a reading for pleasure spine which ensures all children will be exposed to a rich selection of fiction, non-fiction and poetry as they journey through school. Here at Cherry Tree Academy, every school day ends with a quality story time in all classes allowing the children to hear books read to them from our spine.
