8. Additional Arrangements for Keeping Our School Safe 11

1. Policy Statement (of Intent)

The Headteacher, ASC and staff at our school are committed to providing a safe and healthy environment for all users of the school.

As a school, our educational priorities are to:-

- encourage all pupils to achieve their full academic and social potential;
- provide pupils with the skills and experience which will ensure that the widest possible range of choices are open to them in their future lives;
- provide a sense of community in which individuals feel safe, valued and are actively encouraged to value, respect and help others;
- create an atmosphere and environment in which pupils enjoy and take pride in their achievements.

Quite clearly these educational and social priorities can only be fully realised within a physical environment that is both a safe and healthy place to work and learn. This in turn can only be brought about by the dedicated co- operation of all within our school. Health and safety at this school is an area where ASC members, the Headteacher, staff, safety representatives and parents share common objectives. It is vital that we all understand each other's duties, functions and responsibilities as well as our own because it is only by the co-operation and teamwork of everyone involved that health and safety objectives in our school can be achieved.

2. Our Health & Safety Aims:

- To ensure that the school is considered as a safe and healthy place in which to work and learn.
- To provide plant, equipment and systems of work that are safe and minimise the risk to health as far as reasonably practical.
- To raise awareness among all users of the school as to their responsibility for managing the health & safety of themselves and others.
- To provide sufficient information, instruction, training and supervision to enable all employees to avoid hazards and contribute positively to their own health and safety at work
- To ensure the dissemination of all relevant information from relevant bodies and organisations to the correct user[s].
- To regularly monitor and review safety procedures throughout the school.
- To create, maintain and update a central repository of relevant health and safety information.

This safety policy will be regularly reviewed and updated, with changes noted in the 'Document detail' table on the final page.

3. Responsibility holders

Overall responsibility for the management of health and safety in the school is that of the duty holder who is:

Adam Dawson (Headteacher)

Responsibility for the day to day health & safety in the following areas is that of:

Area of Work: Compliance
Caretaker, Robert Day

Area of Work Reception
Trudie Hayes, Senior Admin Officer

Area of Work Educational Visits
Adam Dawson, Fiona Young

4. General Responsibilities

The ASC will:

- Ensure that adequate funding is provided from the school budget to enable the school to be organised and run in a safe and healthy manner.
- Where funding for particular hazards is the responsibility of another party (e.g. the landlord), the governors, through the Headteacher, will ensure the problem is highlighted and assess the hazard in order to render the problem area safe.
- Deal with any health and safety problems brought to them by the Headteacher, staff or parents, through their termly meetings or any emergency meetings, which may be called due to unforeseen circumstances.
- Ensure that the School Health and Safety Policy is brought to the attention of all staff and is implemented in school.
- Help prepare and implement a “site-specific” health and safety policy
- Confirm compliance with statutory policies and procedures
- Ensure that appropriate risk assessments have been carried out
- Ensure that all members of staff receive appropriate training.
- Ensure adequate consultation takes place between managers and employees to allow everyone to contribute to safe working.

The Headteacher will:

- Ensure that health and safety is incorporated into the planning and organisation of all school functions.
- Ensure that adequate communication takes place between managers and employees to allow everyone to contribute to safe working. This consultation and communication will take place through:
 - Staff Meetings
 - Email Notifications
 - Updated Policies

- Inductions
 - Trust H & S Briefings
- Carry out and or ensure that other appropriate staff (with delegated authority to) carry out suitable and sufficient assessments of hazards and risks within their areas of responsibility, to staff members, pupils and visitors/other users of the school. Ensuring the findings are recorded and acted upon in order to reduce risk.
 - Attend health and safety training courses as appropriate.
 - Ensure the provision of adequate training, instruction and supervision for all members of staff.
 - Provide necessary information to staff members and their representatives on health and safety matters.
 - Ensure that staff members who are delegated to carry out particular tasks are competent and fully aware of their roles and responsibilities.
 - Investigate any accidents or near misses and bring these, along with any other health and safety problems, to the attention of the governors.
 - Ensure adequate consultation takes place between managers and employees to allow everyone to contribute to safe working. This will be done in the following way:
 - Staff Briefings
 - Risk Assessments
 - Premises Walks

All Staff & Authorised Volunteers Will:

- Ensure that they are fully aware of their roles and responsibilities, co-operate with the school's policies, procedures and risk assessments and follow any information, instructions or guidance documents made available to them.
- Ensure that safe working practices are adopted at all times and comply with the findings/other outcomes of risk assessments, whether in school, as part of extended provision and or on educational visits.
- Attend health and safety training courses/events as appropriate.
- Undertake suitable and sufficient risk assessments within their areas of responsibility/ for activities to be undertaken as directed by the Headteacher
- Bring to the attention of the Headteacher any accidents, near misses, dangerous equipment, defects or situations which may occur whilst in school or on educational visits.
- Report to the Headteacher any problems that they feel they cannot deal with themselves.
- Have the responsibility to do what they can to take care of themselves, their colleagues, pupils and visitors. In particular employees should co-operate with their managers.

5. Risk Assessment

Our school acknowledges that risk assessments are a legal requirement mainly under the **Management of Health and Safety at Work Regulations 1999**, although most health and safety legislation requires a risk assessment approach.

We will record our risk assessments, in part this will be through using curriculum lesson planning/schemes of work documentation, as well as by using generic risk assessment templates from the Trust's Competent person – Arthur J Gallagher. These will be adapted to our school's specific requirements. In addition, we will also undertake activity, person or situation specific risk assessments and where appropriate document Safe Systems of Working (SSOW) as and when required this will be led by the Head of Estates. We will ensure that risk assessments are easily accessible to those who require them and that risk assessments are reviewed periodically (depending on the significance of the risks involved), following an accident, on the introduction of any new process/equipment/substance or other significant change in circumstances.

All Educational visits undertaken by our school will also be subject to a written risk assessment.

Shown below are the name(s) of the staff assisting with the assessment process, details of when this will take place and the location of risk assessments undertaken.

The following people assist with the risk assessment process for their individual area of work:

Name: Adam Dawson – Headteacher Area(s) of Work – Full Site Location of RA's: Office
Name: Robert Day - Caretaker Area(s) of Work – premises and cleaning Location of RA's: Caretaker office and main office.
Name: Adam Dawson, Fiona Young Area(s) of Work: Educational Visits Location of RA's: EVOLVE

It is the Headteacher's responsibility (as duty holder) to ensure that risk assessments are carried out. However, the Headteacher may request the assistance of competent staff in carrying out risk assessments across various curriculum and non-curriculum areas of activity within the school.

6. KEY AREAS OF HEALTH & SAFETY MANAGEMENT

6.1 Fire

An outbreak of fire in a school can be extremely serious. Under the **Regulatory Reform (Fire Safety) Order 2005**, there is a legal requirement for each building to have an up to date fire risk assessment. This will identify all sources of heat with the potential to cause fire along with considerations relating to the use and storage of combustible materials.

Waterton Academy Trust is responsible for ensuring that **a suitable and sufficient Fire Risk Assessment has been carried out**, that the findings have been appropriately communicated and that any significant hazards identified have been addressed, in addition that there is a process in place for reviewing/updating this on a regular basis.

Fire drills in our school are carried out **once per term** and are recorded in the School Office.

The Headteacher is responsible for ensuring that fire drills are carried out, and that the findings are recorded and acted upon.

We will also record the following in our fire precautions log book; fire alarm and emergency lighting maintenance, fire extinguisher maintenance and Fire Officers visits.

The Caretaker is responsible for ensuring that the Fire Checks are up to date via Every.

The Fire Checks and a copy of our Fire Risk Assessment is kept **on Every**

In addition, we will ensure that when the school requires painting, only paints providing a flame-retardant surface will be used in high risk areas, this will include assembly halls, drama/stage areas, means of escape routes, staircases, and any other areas where there is an added fire risk.

We will monitor on an ongoing basis our use and storage of combustible materials (liquids, solids or gases) to ensure they do not come into contact with sources of heat.

We will ensure that internal fire doors (that are not fitted with automatic volumetric closing devices) are kept closed to stop fire spreading. Fire doors will be regularly checked to ensure both the door and any closing devices operate correctly.

6.2 Permission to Work

The school operates a Permission to Work permit process.

None and Intrusive Work

Our permission to work process must be followed for any work that is intrusive to the structure of the building. All work is by prior arrangement by competent contractors

The Head of Estates is responsible for ensuring that the process is implemented in accordance via vetting the specific contractor

6.3 Legionella Risk Management

Our school acknowledges that Legionnaires' disease is a type of pneumonia. It is an uncommon but serious disease. Legionnaires' disease does not spread from person to person. The germ which causes legionnaires' disease is a bacterium called Legionella pneumophila. People catch legionnaires' disease by inhaling small droplets of water suspended in the air which contain the Legionella bacterium. However, most people who are exposed to Legionella do not become ill.

Outbreaks occur from purpose-built water systems where temperatures are warm enough to encourage growth of the bacteria, e.g. in cooling towers, evaporative condensers and whirlpool spas (trade name Jacuzzi) and from water used for domestic purposes in buildings such as hotels and schools.

A Legionella Survey has been carried out at our school.

The Legionella Survey Report is located **on Every**

A Legionella Maintenance Program to prevent the occurrence of legionella bacteria is in place in our school, the Legionella Maintenance Program is located within the Log Book which accompanies the Legionella Survey Report. Additional information on Legionella is also contained within our school property & facilities manual.

The Trust is responsible for ensuring

- that the recommendations of the report are carried out.
- that appropriate members of staff are trained to understand the reports and carry out or arrange for work required in the maintenance program.

The Trust is responsible for ensuring that a competent person reviews the information in the Legionella Survey Report at least every 12 months or when changes occur to any systems affected.

The Trust is responsible ensuring the activities in the maintenance program are up to date and carried out on time.

The Compliance contract holder is responsible for carrying out or arranging the maintenance program and documenting the activities in the Every portal which accompanies the Legionella Survey Report.

6.4 Accidents

Even in a safety conscious school, accidents may still occur. This is how we deal with them in our school.

All accidents to our staff or pupils will be recorded and investigated, as appropriate to find out what happened and how any similar incident can be avoided.

The Headteacher via the Trust will ensure that accidents are investigated and that major accidents, which are reportable to the Health and Safety Executive, are reported as appropriate to the HSE, your insurer and where appropriate to the Schools Health & Safety Consultant, our health & safety consultant will, where appropriate, provide advice and or investigate significant accidents on our behalf.

All staff have a responsibility to report and record accidents in line with our school's policies and procedures

The Headteacher will ensure staff are aware of the requirement and the location of accident report records. Our accident book/forms are kept in **the main office**.

The Head of Estates will review any accident reports to identify any patterns or trends. In addition, referring relevant reports to the Headteacher/other senior manager to decide if and how investigations should be undertaken in line with school policy.

The Head of Estates will carry out any accident investigations to see what lessons can be learnt and how similar incidents can be avoided. Risk assessments will also be reviewed in light of any lessons learnt.

All accident forms once completed are loaded to the every portal for the attention of the Estates team.

6.5 First Aid

Our school recognises that under the **First Aid at Work Regulations 1981**, employers have to ensure that there are adequate and appropriate equipment and facilities for providing first aid in the workplace. This should include arrangements for first aid based on a risk assessment of the school.

The following people hold a relevant first aid qualification. This information should be reproduced and displayed in prominent locations around school (e.g. school office, staff room, first aid room, staff handbook etc)

Name	Usual Location on Site
Nicole Wilkinson (Paediatric first aid)	EYFS
Louise Gurtler (Paediatric first aid)	Year 1
Jayne Hoyle (Paediatric first aid)	EYFS
Charlotte Robinson	Office

Kerry Morris, Anita Wigg, Theresa De Beer, Dawn Boggett, Melissa Foster and Cathy Duffy	Lunchtime
--	-----------

The Senior Admin Officer keeps records of qualifications on site and there is a procedure in place for revalidating first aid certificates before they expire. These records are kept **the main office**.

The School Caretaker is responsible for ensuring that the First Aid boxes, located around the premises, are restocked.

Our school has given consideration to the level and type of first aid provision that is required both within school and also on off-site activities, this forms part of our first aid risk assessment.

6.6 Electricity

Our school acknowledges that electricity has the potential to cause serious harm, or even death and is treated as a priority with regard to maintenance and repair work. The **Electricity at Work Regulations 1989** requires that all electrical systems and appliances are periodically inspected and maintained. Maintenance and repair of electrical equipment is the responsibility of the school.

Fixed installations i.e. sockets, light fittings and general wiring throughout the school will be tested at least **every five years** by a competent electrician.

Portable electrical equipment will be inspected, tested and maintained in accordance with current Health & Safety Executive and the Institute of Electrical Engineers Guidance, further information is available in Risk Advice Note RAN12.

Where personal electrical equipment brought in by staff is permitted by their senior manager it will be classed as school equipment and should not be used until it has been PAT tested.

The Estates Team is responsible for arranging the testing and maintenance of portable electrical appliances in school (including that brought in from home by staff).

The test certificates and recommendation documentation is kept on **the Every Portal**.

The fixed electrical installation testing in our school is undertaken by: **The compliance contract holder** and the portable appliance testing (PAT) are undertaken by **the compliance contract holder** all documentation to confirm these tests have been undertaken is retained.

6.7 Gas

Under the **Gas (Installation and Use) Regulations 1994**, there is a requirement for all gas appliances (central heating boilers, gas water heaters etc) to be checked, serviced and maintained by a competent (Gas Safe Register formally CORGI registered) Contractor on an annual basis.

The compliance contract holder is responsible for arranging the testing and maintenance the gas appliances.

Gas servicing certificates and recommendation documentation is kept **on the Every Portal**.

Gas appliance inspection and testing in our school is undertaken by: **The compliance contract holder**. All documentation to confirm these tests have been undertaken is retained.

In case of heating failure or breakdown, there may be a need to bring in supplementary heating to ensure an appropriate working temperature is maintained (usually Calor gas heaters). Appropriate risk assessments and safe operation procedures will be implemented in such instances. Should the need for emergency support arise – this will be coordinated by the Estates team.

6.8 Substances

Our school recognises that the **Control of Substances Hazardous to Health Regulations 2002 (COSHH)** requires an assessment to be made of the work processes that involve the use of substances that are hazardous to health. The COSHH regulations do not solely apply to cleaning products. Consideration will also be given to cleaning, decoration, maintenance works, janitorial supplies, science, design and technology, art and other relevant curriculum substances.

Our school has an inventory on site of all hazardous substances copy on the Every portal.

The **Headteacher** is responsible for ensuring that appropriate staff are informed and suitably trained regarding hazardous substances. In addition, **relevant teachers** will brief pupils where appropriate.

The Caretaker is responsible for keeping the inventories up to date.

Data sheets are available on site for all hazardous substances that are being used, these are kept in locations where hazardous substances are stored. Additionally separate risk assessments are carried out for the work processes which involve hazardous substances.

The Caretaker is responsible for ensuring that data sheets are available to staff on site and that appropriate assessments have been carried out.

Inventory Location	Type of Inventory
The main office	Cleaning & Janitorial
The main office	Premises & Maintenance

6.9 Site Safety and Security

Our school takes the safety and security of staff, pupils and visitors seriously. **A secure perimeter fence and suitably robust and lockable gates secures our site.**

Any issues regarding damage or access to the site should be reported to **Estates via Every**.

The Headteacher, Estates team and caretaker are responsible for ensuring that regular documented inspections of the internal and external areas of the site are carried out.

Our site is also protected by a monitored intruder alarm system

All visitors to our site enter into a secure visitor lobby and are required to sign the visitors' register and wear an identity badge whilst on site. Visitors are not left unaccompanied.

The compliance contract holder is responsible for the maintenance and running of the security intruder alarm system.

****In cases of emergencies outside normal hours the following people can be contacted.**

Name
Key Holder (Site Staff – Robert Day, Adam Dawson, Jane Storey)
Key Holder (other – Estates team)

7. Safety Guidance Documents & Risk Advice Notes

Safety Guidance Documents (SG) and Risk Advice Notes (RAN) form part of our safe operating procedures and used as appropriate to support our school in the practical day to day management of many aspects of school safety. Copies of these documents are available on the HS website

The Head of Estates is responsible for ensuring that both operational and strategic Health and Safety documentation is up to date and communicated to staff appropriately.

The Headteacher is responsible for ensuring that all key safety procedure documents have been brought to the attention of all members of staff.

8. Additional Arrangements for Keeping Our School Safe

In addition to the generic and specific departmental responsibilities outlined in this policy, specific roles and responsibilities have also been assigned to the following people with regard to key identified activities/tasks, this is part of our school's commitment to safety management and promoting a positive safety culture:

Named Person	Area(s) of Responsibility
The Headteacher	Premises Related issues such as visitor/contractor supervision, deterioration in condition, trip/slip hazards, management of lettings etc.
Senior Admin	Administration of Medicines
Adam Dawson, Fiona Young	Educational Visits
Adam Dawson	Volunteers/Student Placements
Zoe Wilby	Science
Adam Dawson	PE Activities
